

# Los 30 más sucios

- Aluminium, zirconium and other Aluminium compounds
- Benzalkonium chloride and benzethonium chloride
- Benzil acetate
- Bronopol
- Butyl acetate
- Butylated hydroxytoluene (BHT) y Butylated hydroxyanisole (BHA).
- Coal tar o tintes de alquitrán de hulla
- Cocamide DEA and Lauramide DEA
- Diethanolamine (DEA)
- Ethoxylate
- Ethyl acetate
- Formaldehyde
- Conservantes liberadores de formaldehído: quaternium-15, DMDM hydantoin, imidazolidinyl urea, diazolidinyl urea, polyoxymethylene urea
- Fragrance (parfum)
- Hydroquinone
- Iodopropynyl butylcarbamate
- Plomo y compuestos del plomo: lead acetate, lead acetate trihydrate, lead chloride, lead nitrate, and lead subacetate
- Methylisothiazolinone (MI, MCI, MIT) y Methylchloroisothiazolinone
- Parabenos: methyl, ethyl, propyl, butyl
- Petrolatum

- Phthalates o ftalatos (dibutyl phthalate, butyl benzoate phthalate, diethylhexyl phthalate, dimethyl phthalate).
- Triclosan, Triclocarban
- Toluene
- PEG, cetareth, polyethylene
- Siloxanos, PDMS, Dimeticona.
- Vaselina contaminada de HAP
- Octocrylene
- Oxybenzone
- Homosalate
- Octinoxate
- Retinyl Palmitate

Escribe a continuación otros ingredientes en tus productos de higiene y belleza que no estén aquí enumerados y que desees investigar:
